ReMeMaRe 2024

Restoring Estuarine & Coastal Habitats

We are delighted to offer a range of sponsorship opportunities for the next edition of the UK's leading conference focused on the restoration of estuarine and coastal habitats.

The 2024 programme will include five sessions across two days, covering all of the major topics in the field. We have secured a strong line-up of keynote & sector leads to speak.

We are excited to welcome delegates in-person to a summer experience near the beach in Scarborough.

The conference is delivered as a collaboration between the Environment Agency and Ocean & Coastal Futures.

If you would like to sponsor this event, please email: jayne.onions@coastms.co.uk

Sponsorship Benefits

The conference audience: Attendance at the conference will exceed 200 delegates from 100+ organisations. This provides an extremely effective way to engage and connect with a wide cross-section of the ocean and coastal sector.

Branding package: Your logo will appear on the conference programme, welcome slide at the conference, our social media and web-pages.

Exhibition space: An opportunity to display your banners and have staff on-hand to engage the audience during breaks.

Sponsor content: Links to the sponsors' websites are included on the promotional e-mailings to our 8,000+ subscribers in the run up to the conference and acknowledged via social media posts.

Training: The conference has the largest audience focused on estuarine and coastal habitat restoration in the UK and covers a wide range of current issues. Attendance is a cost effective way of bringing staff up to speed on current thinking and exposure to a wide cross-section of views.

Drinks Reception: The Drinks Reception Sponsors will have prominent branding on the promotional material and acknowledgments of sponsorship throughout the conference.
