ReMeMaRe 2026

Restoring Estuarine & Coastal Habitats

We are delighted to offer a range of sponsorship opportunities for the next edition of the UK's leading conference focused on the restoration of estuarine, marine and coastal habitats.

The 2026 programme will include multiple sessions across two days, covering all of the major topics in the field. There will be a strong line-up of sector leading speakers and posters, with the chance to network with practitioners, government and industry.

We are excited to welcome delegates in-person to a summer experience near the beach in Scarborough. The conference is delivered as a collaboration between the Environment Agency and Ocean and Coastal Futures.

**If you would like to sponsor the conference, please email:
jayne.onions@coastms.co.uk**

Sponsorship Benefits

The conference audience: Attendance at the conference will exceed 200 delegates from 100+ organisations. This provides an extremely effective way to engage and connect with a wide cross-section of the ocean and coastal sector.

Branding package: Your logo will appear on the conference programme, slides at the conference, our social media and web-pages.

Exhibition space: An opportunity to display your promotional material and banners, and have staff on-hand to engage the audience during breaks.

Promotion to OCF's 20,000+ subscribers and followers: Links to the sponsors' websites are included in the promotional e-mailings in the run up to the conference and sponsors are acknowledged on social media posts.

Training: The conference has the largest audience focused on estuarine, coastal and marine restoration in the UK and covers a wide range of current issues. Attendance is a cost effective way of bringing staff up to speed on current thinking and exposure to a wide cross-section of views.

Poster showcase and evening reception: All sponsor fees contribute to the running of the evening reception on first day. The support of sponsors will be acknowledged throughout the conference.
